INTRODUCTION

❑ NAFDAC Automated Product Administration and Monitoring System (NAPAMS), is software solution for the regulation and control of the importation, exportation, manufacture, distribution, advertisement, sale and use of Foods, Drugs, Cosmetics, Medical Devices, Chemicals, Detergents and bottled water in Nigeria.

❑ It is a web-based enterprise software solution which is accessible via two modes.

❖ Online using a laptop through the web interface and

❖ A Mobile phone for product validation and enforcement

INTRODUCTION

❑   It is designed

1.   For e-registration of Foods, Drugs, Cosmetics, Medical Devices, Chemicals, Detergents and bottled water

2.   To create an authentic database of Foods, Drugs, Cosmetics, Medical Devices, Chemicals, Detergents and bottled water

3.   And for the remote verification and authentication of information on all NAFDAC approved products in Nigeria

OBJECTIVES OF NAPAMS

- ❑ Create an authentic database of Foods, Drugs, Cosmetics, Medical Devices, Chemicals, Detergents and bottled water in Nigeria.

- ❑ Reduce the amount of unregistered products

- ❑ Reduce the duplication of registered products

- ❑ Create a record of companies involved with NAFDAC regulated products

- ❑ Create a centralized administration and management system

- ❑ Provide real time reports on status of products (i.e. approved or declined)

- ❑ Ease the compliance (multiple payment points) and the process of enforcement.

BENEFITS OF NAPAMS TO NAFDAC

❑ Allows for effective management and tracking of activities of members of staff from a central administrative point

❑ Enhance revenue streams of the organization and allows for effective tracking of revenue (e.g. Amount generated from renewal of drug items)

❑ Prevent duplicate processing of the same product

❑ Provide a means of getting accurate statistic (e.g the number of pesticides register)

BENEFITS OF NAPAMS TO NAFDAC

- ❑   Provides Cost Savings to NAFDAC in the long run

- ❑   Prevent the queue of clients in NAFDAC offices

- ❑   Enables NAFDAC to monitor products registered by a
company (vendor)

- ❑   Allows for forecasting and projections

- ❑   Multiple payment options for Accessibility

BENEFITS OF NAPAMS TO COMPANIES/VENDORS

- ❑ Allows for tracking a product through the registration stages

- ❑ Enables NAFDAC to monitor products registered by a company (vendor).

- ❑ Eliminates the need for submitting documents repeatedly

- ❑ Enables vendor track and monitor their products all through the registration process

- ❑ Provide record of a product all through it lifecycle including all changes that may have been approved for the product

- ❑ Multiple payment options for Accessibility

- ❑ Prevent the queue of clients in NAFDAC offices
